"Preparing for the Changes Ahead"

Dubai 11-12 April

Dr. Marwan Jabri
Co-Founder & CTO
Dilithium Networks

Dr. Marwan Jabri brings nearly twenty years of research, development, and commercialization expertise in multimedia communications systems and intelligent signal processing. His areas of expertise include voice and video compression and transcoding, multimedia quality of service, and video applications over mobile and broadband networks.

Dr. Jabri is also the founder of Macchina, the predecessor to Dilithium Networks, and acted as both the driving technical force as well as CEO. He has significant expertise in multimedia protocols and their implementation in embedded systems, and was closely involved in a number of standardization activities, including with the ITU in the development of the ITU H.324/H.324M standards.

Dr. Jabri holds a License de Physique and a Maitrise de Physique, University of Paris 7, France, and a Ph.D. in Electrical Engineering from the University of Sydney, Australia.
